## “Miracles Happen”

A miracle is defined as an occurrence that interrupts the natural order of things with another outcome. In the natural world, what goes up must come down – this is one of Newton’s laws.

Science has been a great blessing for mankind, but it has its limitations.

We now know scientifically that some things keep going once they have “gone up!”

Newton’s law was based on what was known at the time. We now know that the earth’s gravitational pull is also limited.

There are other laws that govern our existence – laws that can only be found in the Bible.

When Jesus was raised from the dead, he began demonstrating other **laws**. He appeared more than once to His disciples in rooms with closed doors. He appeared to others in a different form.

We now know there is another realm, or dimension coincidental with this natural world.

Adam, in the original creation, had access to both realms. Man was consigned to being locked into the natural after sin.

Jesus referred to being able to “see” the Kingdom after one was born again. He wasn’t referring to a natural building or edifice.

We now **see** the Kingdom and walk in the Spirit!

*Challenge Reminder:*

**Read five chapters in the Word and pray in tongues for 30 minutes.**

*"Likewise the Spirit also helps our weaknesses. For we do not know what we should pray for as we ought, but the Spirit HIMSELF makes intercession for us with groanings which cannot be uttered. Now He who searches the hearts knows what the mind of the Spirit is, because He makes intercession for the saints according to the will of God." -Rom. 8:26-27*
